BLOCK & CHISEL

THE ENGLISH COUNTRY STYLE
REFECTORY TABLE

DESIGNED BY

Sibley

THE ENGLISH COUNTRY STYLE REFECTORY TABLE

Dimensions:

Available in varying lengths starting from 1800mm. Standard width 1000mm

At Block & Chisel we strive to be innovative and display the highest example of craftsmanship. This is perfectly accentuated by the details in our Refectory Table.

The original concept of the Refectory Table can be dated back to the late Middle Ages. It has been used by Monks as a feasting table and later as a typical banqueting tables in castles across Europe.

Due to its popularity and sturdy shape, this table with its classic design has remained unchanged over the years. The only adaption has been the more ornate hand turned legs and other small design details.

The Refectory has been a firm favourite with Block & Chisel clients for many years and as a result has become an heirloom to be enjoyed by future generations.
